1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Raymond Sun on February 16, 2005. Mr. Sun agreed to amend the abstract and the claims for minor errors, lack of antecedent basis, and some languages/terminologies that are not descriptive of the function of the element or component claimed. In the Examiner's amendment for the abstract, for example, the focusing chart is not performing the automatic focusing. The chart is for assisting the automatic focusing; it is the optical chassis that does the automatic focusing.

3. **Please amend the abstract and claims as follows:**

In the abstract

Lines 8-9 of page 11, after "detecting elements", delete "and capable of" and insert – for assisting --.

In the claims (claims 1-8 and 12)

In claim 1, line 2 of the claim, change "foran" to – for an --;

lines 5 and 6 of the claim, delete "and capable of" and insert – for assisting --; and

line 6 of the claim, after "automatic focusing", delete "focus detecting".

In claim 2, line 2 of the claim, change "the plurality" to – the plurality --; and after "is", insert – a plurality of --.

In claim 3, line 3 of the claim, after "reflected", change "through" to – by --;
line 5, before "charge-coupled device", change "the" to – a --; and
before "digital", insert – electrical signals to be converted into --.

In claim 4, lines 2-3 of the claim, after "at least one", change "reflection mirror" to – of the plurality of mirrors --.

In claim 5, line 2, before "lens set", insert – a --.

In claim 6, line 2 of the claim, change "of" to – by a --.

In claim 7, line 3, after "and" at the end of the line, change "the" to – an --; and
line 4, change "provide" to – provides --.

In claim 8, line 2 of the claim, change "comprising" to – comprises --.

In claim 12, line 2 of the claim, change "comprising" to -- comprises --.

4. The following is an examiner's statement of reasons for allowance:

Claim 1 and its dependent claims 2-14 are allowable over the prior art of record because none of the prior art cited below teaches a focusing apparatus of an automatic document feeder, the focusing apparatus comprising a focusing chart disposed at a location corresponding to the scanning zone of automatic document feeder, as claim in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sheng et al. (U.S. Patent No. 6,512,602) discloses an automatic document feeder used with a flat bed scanner, in which the vertical position of the image sensor is changed to maintain equal distance between the scan surface and the image sensor (Figs. 3A and 4A and col. 3, lines 6-48). Sheng et al. does not disclose a focusing chart of the automatic document feeder as claimed in the present application.

Lin (U.S. Patent No. 6,301,061) discloses a switching device for multiple focus points of multiple optical paths in an original scanner. In one embodiment, an automatic document feeder is used in the scanner, but Lin does not disclose the claimed focusing chart disposed at a location corresponding to the scanning zone.

Inagaki (U.S. Patent No. 6,665,097) discloses an image reading apparatus for scanning a black-and-white-stripe-pattern focusing chart disposed at the same horizontal level as the scanning window. Inagaki does not disclose an automatic document feeder.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheukfan Lee whose telephone number is (703) 305-4867. The examiner can normally be reached on 9:30 a.m. to 6:00 p.m., Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward L. Coles can be reached on (703) 305-4712. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
